

THE HARDY FRAME[®] SPECIAL MOMENT FRAME FIELD ASSEMBLY OPTION

Hardy Frames now offers a splice option for the Special Moment Frame. The splice option is a site friendly retrofit alternative for indoor installations and areas hard to access.

- Maintains the Hardy Frame SMF performance and national approvals
- Easier to field assemble
- No field welding
- Easy to locate and position in existing structures
- Enables Frame to be installed, then bolted in place
- Splice connection is accessible from the ground
- Easier than SMF bolted connections
- Reduces shipping cost of over-sized Frames
- The bolted splice meets code per AISC 341-10/AISC 360-10/AISC 358-10/AISC M-Part 14
